

REALISTIC SYNTHETIC / 100 PAGES

# Packaging evidence pack / NC-FC-0426

Northline Fibre Cup 426 ml

CONSTRUCTION

**Printed paperboard cup, aqueous barrier and PP lid**

EVIDENCE PERIOD

**18 Mar 2025 - 31 Jul 2026**

KNOWN CONTROL POINTS

**2 missing sources / 1 recorded contradiction**

INTENDED WORKFLOW

**Upload, extract, source-check, review, then approve**

**FICTIONAL DATA / NOT A CONFORMITY ASSESSMENT**

All companies, people, document identifiers, results and commercial records in this file are synthetic. This pack demonstrates document processing and human review; it is not legal advice, certification or a manufacturer declaration.

# Intake manifest and custody record

The source pack is a designed test fixture. Every organisation, reference number and commercial record is fictitious.

| RECORD        | VALUE                            | STATE          | SOURCE / NOTE           |
|---------------|----------------------------------|----------------|-------------------------|
| Gap G-01      | PP lid migration report          | Not supplied   | Requested 22 Jul 2026   |
| Gap G-02      | PCR chain-of-custody certificate | Not supplied   | Requested 22 Jul 2026   |
| Conflict C-01 | PP lid PCR percentage            | 28% versus 30% | Owner: Supplier quality |

CONTROL NOTE

The absence of source material is intentional. PackDossier should create supplier requests and retain the gaps rather than infer an answer.
